“Living Lent: Making Good Decisions In Our Day-To-Day Lives”
The preparation we do in Lent for Easter, is not only meant to limit the excesses in our lives over five weeks, but to name the traps that stop us making life-giving decisions all year around. If Ignatian spirituality offers the Church anything, then it has to be discernment: the ability to navigate our daily lives avoiding the pitfalls that can be so destructive to our relationships with God, others and self, and make good decision that embrace the new life of Easter. This engaging and practical presentation is a wonderful way to begin our Lenten journey.
