We congratulate the class of 2013 and, as a college community, celebrate their excellent SACE results. As a non-academically selective college, we are proud of the strong culture of achievement which exists amongst our students. Our students’ excellent results reflect their hard work and commitment, together with the dedication and professionalism of our teaching staff. The success achieved by our students has been across a breadth of subject areas, allowing each student to use their unique gifts and talents to achieve their personal best.

We also wish to commend our Year 12 students for achieving not only academic success throughout 2013, but for their passionate and full-hearted involvement in a broad range of co-curricular and social justice programs. They have made the most of all the opportunities afforded to them and for this, we sincerely congratulate them.

We send our graduates all our best wishes for their future. May they lead happy and fulfilled lives as they strive to do everything they do well. As a college, we encourage them to continue to be ‘women for others’, and in so doing, help to build a better and more just world.

Rosalie Gleeson  
Principal  

December 2013

2013 Results highlights

2% of students achieved an ATAR of 99 or above, placing them in the top 1% of the state
